

Line: Complementary products Category: 1K special finishes	Type: Internal and external anti-corrosion finishes Code: 2052.01 (Dark); 2052.02 (Transparent)
---------------------------------------------------------------	----------------------------------------------------------------------------------------------------

Name or commercial logo: **PV083 - Dark**
PV083 - Transparent

Nature: waxy compound with a base of paraffinic - naphthenic mineral oils and additives dispersed in hydrocarbon solvents.

Use: product intended to avoid the formation of rust in the boxed parts and in the coupling zones of the plates in the motor vehicles; as protective coat of parts or details of machinery destined to long periods of storage.

Peculiarities:

- the product is sold in the following colors: brown (dark wax) and colorless (transparent wax);
- the low viscosity and the slowness of desiccation allow the PV 083 S and PV 083 T waxes, also due to the movement of the vehicle, to reach areas more difficult to apply, creating a waxy film on them, which assures a long protection from the rust.

Physical features

Aspect:	Liquid	Viscosity:	5000 ÷ 10000 mPa*s
Color:	Transparent/beige; Dark/brown	Dry residue:	about 50%
Odour:	Characteristic		
Specific weight:	0,88 kg/l		

Directive 2004/42/CE:	all. II B/e - special finishes, all kinds	
	Maximum VOC content limit value expressed in g/l of ready for use product (1.1.2007):	840
	PV083 ready for use, expressed in g/l:	440

Applicative data:

	The product is ready for use previous a long and energetic shaking of the container. Spray application by means of proper airbrush at dip tube which must be screwed to the cap of the cans that contain the product, and provided of flexible cannula at whose end is fixed a nozzle with tangential holes or cuts; the cannula must be inserted in the boxed parts.
------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

	The product lifetime is 12 months from delivery date, if the product is stored in a dry place at temperature between 10 °C and 35 °C, in unopened original containers, away from direct sunlight, according to general sales conditions.
-------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Warnings and precautions

	<ul style="list-style-type: none"> - Read carefully the Safety Data Sheet before use; - Product specifically for PROFESSIONAL USE; - SHAKE LONG AND FORCEFULLY THE CONTAINER BEFORE USE; - In case of difficult spillage of the product, avoid to increase the pressure of the airbrush, but dilute the product with turpentine, and, after a prolonged shaking, proceed with the application; - After use, carefully clean the airbrush with turpentine, the formation of fouling may cause the explosion of the container in a following use.

Consumer information:

The information here contained are based on our knowledge at the moment. We reserve the right to make changes in the characteristic data of the product in relation with technological progress or productive developments. Due to factors beyond our control in the applicative phase of the product, the information here contained are not a form of guarantee for specific qualities of the product itself, nor its suitability for a specific application. If a responsibility is determined, this will be limited to the value of the provided products used by the consumer. We guarantee however the constancy in the quality of our products. Our responsibility concerns only the area of the General Sales Conditions. This Technical Data Sheet supersedes all the previous.
